Curriculum Vitae of the machine Reference number: 23003

ABG DIGICON SERIES 2

modular finishing machine for roll digital printing machines

Production Year:	2009
Number of Colours:	1
Availability:	immediately
Work Experiences:	full-surface coating, material from 190 - 333 mm and thickness from 100 - 300 microns
Sale Reason:	purchase of a new machine
Condition of the Machine:	functional, condition and wear and tear according to its age, well maintained still in production
Disclaimer:	The Condition of the Machine assessment presented in this CV was either obtained from the last machine operator or is based on an inspection performed by our employee, just to provide you with as much information as possible. For more certainty we recommend your own check or an assessment of an independent mechanic. We cannot provide you with any machine guarantee.

More Details:
manufacturer: ABGraphic International
semi-rotary hotfoil stamping for 60 or 120 teeth
flexo printing unit with UV drying
printing unit for full-surface coating
cold pressing is used with glue technology
lamination using glue and UV drying or self-adhesive lamination
the use of a laminating unit excludes coating and cold embossing of foils
flat embossing with maximum image dimensions of 300 mm (width) and 315 mm (in the direction of printing)
semi-rotary die cutting unit with magnetic cylinder 19 ½"
