

## Curriculum Vitae of the machine Reference number: 25530

## ABG DIGIKON SERIES 2 Flexographic Printing Machine

**Production Year:** 2005  
**Number of Colours:** 1

**Availability:** immediately

**Work Experiences:** full-surface coating,  
material from 190 - 333  
mm and thickness from  
100 - 300 microns

**Sale Reason:** production reduction

**Condition of the Machine:** functional, condition and  
wear and tear according  
to its age, well  
maintained  
dismantled and stored

**Disclaimer:** The Condition of the  
Machine assessment  
presented in this CV was  
either obtained from the  
last machine operator or  
is based on an  
inspection performed by  
our employee, just to  
provide you with as  
much information as  
possible.  
For more certainty we  
recommend your own  
check or an assessment  
of an independent  
mechanic. We cannot  
provide you with any  
machine guarantee.

### More Details:

manufacturer: ABGraphic International  
semi-rotary hotfoilm stamping for 60 or 120 teeth  
flexo printing unit with UV drying  
printing unit for full-surface coating  
cold pressing is used with glue technology  
lamination using glue and UV drying or self-adhesive lamination  
the use of a laminating unit excludes coating and cold embossing of foils  
flat embossing with maximum image dimensions of 300 mm (width)  
and 315 mm (in the direction of printing)  
semi-rotary die cutting unit with magnetic cylinder 19 1/2"
