

Curriculum Vitae of the machine Reference number: 21553

HORIZON VAC 100 a + VAC 100 m + SPF 20 + FC 20 Collating and Stitching Line

Manufacturer: Horizon International Inc.,
Kyoto, Japan
Production Year: about 2000
Max. Size/Width: 320x490 mm (12.6"x19.3")

Availability: immediately

Work Experiences: paper weight 52 - 210 g /
m2, cover up to 300 g /
m2

Sale Reason: production reduction

More Details:
air collating system
suction feeding
1 x collating station VAC 100a
1 x collating station VAC 100m
touch screen
electronic control of collating
multifunctional tandem stacker
discarding faulty sets while machine is running
possibility of stacking with offset
stitching module SPF 20 2x stitching head
front cut FC 20
remote control of machine

Condition of the Machine: very good condition, well
maintained, worn out
according to its age
still in production

Disclaimer: The Condition of the
Machine assessment
presented in this CV was
either obtained from the
last machine operator or
is based on an
inspection performed by
our employee, just to
provide you with as
much information as
possible.
For more certainty we
recommend your own
check or an assessment
of an independent
mechanic. We cannot
provide you with any
machine guarantee.

Advantages of the Machine: modular system with
minimum space
requirements
robust construction of all
Horizon components
