KOMFI AMIGA 52
Laminating Machine

SPECIAL OFFER

Manufacturer:	KOMFI spol. s r.o., Dvořákova 1001, 563 01 Lanškroun
Production Year:	2019
Max. Size/Width:	560x800 mm (22.0"x31.5")
Counter:	8953 sheets
Availability:	immediately
Sale Reason:	production reduction
Condition of the Machine:	functional, condition and wear and tear according to its age, well maintained not in production but still plugged in
Disclaimer:	The Condition of the Machine assessment presented in this CV was either obtained from the last machine operator or is based on an inspection performed by our employee, just to provide you with as much information as possible. For more certainty we recommend your own check or an assessment of an independent mechanic. We cannot provide you with any machine guarantee.

More Details:
grammage 115 - 600 g/m2
max stack height of the feeder 520 mm
laminating foil thickness 24 -50
cylinder heating approx. 4 minutes
bottom feeder with the possibility of continuous sheet addition
vacuum pump
automatic sheet overlap control
detection of incorrect feeding
laminating roller heated by IR and PID
detection of temperature drop
pressure roller coated with NBR (rubber)
air pressure drop detector
automatic sheet separation using a built-in perforator
straightening roller + bar
detector of separated sheets
separating roller with adjustable speed
electronically controlled tearing section
fixed delivery table
additional blowers
foil cutting
additional perforator on the roll
height-adjustable spreading roller
OTF modification (wrapping foil)
pressure roller coated with teflon
laminating foil feeder rolls
preventive maintenance spare parts kit
PSA modification (self-adhesive foil)
pressure roller coated with polyurethane
sheet preheater
screening module
antistatic bar
jogging table
