

Curriculum Vitae of the machine Reference number: 23045

SOMA FLEX MINI UVG Flexographic Printing Machine

SPECIAL OFFER

Production Year:	2005
Number of Colours:	8
Web-width:	850 mm
Counter:	67130 hours

Availability: immediately

Sale Reason: surplus equipment sale

Condition of the Machine: functional, condition and wear and tear according to its age, well maintained can be seen running

Disclaimer: The Condition of the Machine assessment presented in this CV was either obtained from the last machine operator or is based on an inspection performed by our employee, just to provide you with as much information as possible. For more certainty we recommend your own check or an assessment of an independent mechanic. We cannot provide you with any machine guarantee.

More Details:

part of the machine is a Flexmont 850 S assembly machine for assembling flexo printing forms (sleeves).

UV drying

without gears

modern system for driving printing and raster cylinders with servomotors digital controls ensuring their exact task position

motorized computer-controlled inking mechanisms

max speed 300 m/min

standard print speed 190 m/min

max print width 800 mm

min material width 300 mm

min print length 300 mm

max print length 600 mm

max roll diameter 800 mm

inner diameter of the sleeve 76 mm

outer diameter of the sleeve 105 mm

drying UV lamp 200w/cm 7 pcs

lamp cooling water, air

non-stop unwinding unit

adjustment of corona surface tension

page regulation before printing

printing unit with a central cylinder

cnc controlled inking mechanisms

closed chamber doctor blades coated (fluoroplastic) for easy washing

ceramic raster cylinders

form cylinders with pneumatic sleeve clamping

motor drive of raster cylinders when the machine is stopped

ozone extraction

Fife inprint print control system

edge trimming system

winding unit double-shaft carousel design
